

# NextEra Energy Transmission (NEET): The Leading Competitive Transmission Developer, Owner and Operator in North America

## Competitive Track Record

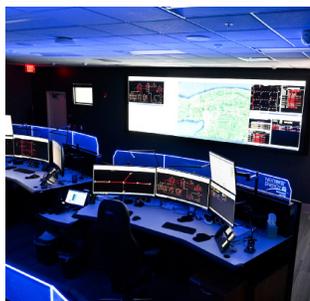

NextEra Energy Transmission is the leading competitive transmission company, investing \$5 billion in regional utilities to own, finance, develop, construct, operate and maintain transmission assets across the U.S. and Canada.

- » Won 40% of all North America competitive transmission solicitations in the last 10 years
- » Delivered 10 projects with total \$3.1 B capex
- » Leading innovator in cost containment for customers
- » No permit denials/never walked away from a project
- » Building strong partnerships with communities and stakeholders

## HVDC Submarine Cable Experience

- » Trans Bay Cable provides ~40% of the power to San Francisco
- » NEET owns 75% of all submarines HVDC cable systems in the U.S.

## Control Center

- » World-Class Safety Performance
- » Operates 365/24/7
- » Delivers automated restoration alerts
- » Coordinates with local ISOs

NEET leverages the full technical, financial and operational capabilities of NextEra Energy to provide significant benefits to its customers. Our strengths in executing large and complex transmission projects with highly skilled technical expertise, excellent vendor relationships, financial strength, robust design and track record will get the job done right, on-time and on-budget.
