

NextEra Energy's Plan for New Jersey Will Create Good Union Jobs Connecting Offshore Wind

With national expertise in transmission, NextEra Energy is the right choice to connect New Jersey to Offshore Wind

Our project will bring good paying Union jobs to New Jersey, and NextEra Energy is the right choice to lead it

We're dedicated to helping New Jersey decarbonize, and we have created multiple options for New Jersey to choose from.

BUILD

State-of-the-art new substations to support vital infrastructure upgrades on New Jersey

CONSTRUCT

Install new underground transmission lines to support a reliable, resilient electric grid that can withstand severe weather

INVEST

Our project will inject up to \$13 billion into New Jersey's economy during construction*

JOB

Up to 52,000 construction jobs will be created under our proposal and we are committed to using New Jersey Union workers

Our parent company, NextEra Energy Inc., (NextEra Energy) is shaping the future of energy

NextEra Energy is shaping the future of energy through innovation and investments in clean energy throughout the U.S. and Canada.

As the world's largest generator of clean energy, we bring broad and deep experience to the development, design and operation of complex project and have an expertise in completing projects with efficiency and working with numerous stakeholders.

		
\$145 B in total assets	61 GW in operation	50+ % zero carbon in 2021
		
300 major capital projects in last 15 years	10,000 different suppliers used in 2021	

And the right choice for New Jersey's Union workers and economy

New Jersey will see an immediate impact from new Union jobs, new contracts with suppliers, and new spending when New Jersey workers shop locally at grocery stores, restaurants, and retail. This is the economic stimulus that New Jersey needs as Governor Murphy continues to focus on creating good jobs, growing our economy, and protecting our environment. **NextEra Energy has the experience, expertise, and track record to get the job done.**
